Lynn Presley M.A. is an Independent Clinical Educational Consultant specializing in the therapeutic and educational placement of youth & young adults who struggle with issues related to mental health, substance abuse and eating disorders.

Lynn has a Master's Degree in Educational Psychology and has worked with adolescents, young adults and their families in the mental health and recovery fields since 1989. She tours programs to meet the staff, and understand each program's structure and philosophy. She helps the family choose the best placement based on the client's needs. Additionally, once a placement decision has been made she will continue to work with and advocate for the family and monitor the child's progress.

- ON-GOING MONITORING AND FOLLOW-UP

How can an educational consultant help you?

Parents who are challenged with choosing the best treatment or educational program for their adolescent or young adult child are faced with many obstacles. Presley Consulting ETC will help your family to carefully develop a plan that best meets the needs of your child. There are many programs across the United States and worldwide but deciding between them can be an emotionally, physically and financially exhausting process. The reality is, that all programs are not alike, and don't meet the needs of every child. This is why Lynn Presley of Presley Consulting ETC can be an asset to your family's team.

As an Independent Clinical Educational Consultant, Lynn works for the family and has no outside interest in any particular program. Her background in evaluation and assessment, as well as with struggling youth, provides her with the expertise, knowledge and objectivity to understand the client's issues as well as the differences between programs. Therefore, a parent who chooses to work with Presley Consulting ETC highly increases the chance of making the right placement choice from the beginning, thus avoiding treatment or educational failures, further placements, and additional costs.
